

Are you interested in being a MAP team member?

Do you know families who would benefit from MAP team support?

*MAP team membership typically includes representation from each of the following:*

- Families • Local Schools
- Community Mental Health Center
- County Child Protection Services
  - Juvenile Justice
  - Local Department of Rehabilitation Services
  - Local Health Department
- Local Law Enforcement • Ministers
  - Youth Leaders
- Other representatives of children/youth and family service groups or organizations

**Contact**  
**Henry Moore**  
Hinds County  
MAP Team Coordinator  
[hmoore@faams.org](mailto:hmoore@faams.org)  
or call him at 601-355-0915.

The Hinds County MAP Team meets on the third Wednesday of each month to work together with families to provide information to help serve the child's or youth's needs in the community.

Funded through the  
Mississippi Department of Mental Health

State Chapter of the National Federation of Families

*Sometimes,  
it can be very hard  
for families, even when  
they are trying  
their best to keep  
their children  
at home with them.*

The Hinds County MAP Team is here to support families whose children, ages birth to twenty-one (21) years, have serious emotional/behavioral disorders and/or are dually diagnosed with serious emotional/behavioral disorders and an intellectual disability or serious emotional disturbance and alcohol/drug use, and who require services from multiple agency providers and multiple service systems.

Serious emotional disturbance means that a child has a mental health diagnosis and the symptoms of that diagnosis are causing the child to have trouble functioning at school, home or in the community.

**If you are not sure if a child has a diagnosis but you think they might, the MAP Team can support you in getting that question answered.**

The Hinds County MAP Team works in partnership with families by bringing together the right kinds of services and supports so that children are less likely to need out of home placements such as at psychiatric facilities or juvenile detention.
