

As my internship at Families as Allies comes to a close, I find myself reflecting on the invaluable lessons and experiences I have gained during my time here. Working with an organization dedicated to advocating for families with children facing behavioral challenges has been truly eye-opening, and I am grateful for the opportunity to have been part of such meaningful work.

One of the most significant lessons I have learned during my internship is the importance of empathy and understanding in supporting families navigating behavioral issues. Witnessing firsthand the challenges these families face on a daily basis has deepened my appreciation for the resilience and strength they demonstrate in the face of adversity. I have learned to approach every interaction with compassion and an open mind, recognizing that each family's journey is unique and deserves to be treated with respect and dignity.

In addition to gaining a deeper understanding of the issues surrounding behavioral health, my internship has also provided me with

valuable practical skills that I will carry forward into my future endeavors. From conducting research and data analysis to engaging in community outreach and education efforts, I have honed my abilities to effectively communicate and collaborate with diverse stakeholders.

As I prepare to transition from intern to alumna of Families As Allies, I am filled with gratitude for the guidance, mentorship, and encouragement I have received throughout my journey. I am confident that the lessons I have learned and the experiences I have gained will continue to shape my personal and professional development in the years to come.

Thank you once again for the opportunity to be part of such a transformative organization. I am proud to have been a member of the Families As Allies family and look forward to carrying its mission forward wherever my path may lead.

With heartfelt appreciation,
Mia Ford - JSU BSW Intern 2024
